

## Steffen Fuchs, M.Sc.

### Research Focus:

- Translational Oncology
- Pediatric Oncology, especially the biology of childhood neuroblastoma
- Non-coding RNA, especially miRNA and circRNA
- Epigenetic regulation

### Short CV

Since 10/2016: Physician Scientist, Schulte Lab, Charité, Department of Pediatric Oncology, Berlin, Head: Prof. Johannes Schulte.

Since 03/2016: Resident, Charité, Department of Pediatric Oncology, Berlin, Head: Prof. Angelika Eggert.

01/2011- 02/2016: Studies in Experimental Medicine, M.Sc., Würzburg University. Thesis: Network of Epigenetically Silenced Tumor Suppressor miRNAs and Targeted Colorectal Cancer-Associated Genes S100A4 and MACC1. Supervision: Prof. Ulrike Stein, Max-Delbrück-Center for Molecular Medicine, Berlin.

04/2009-11/2014: Studies in Medicine, Würzburg University. MD Thesis: The role of MACC1 for the pathogenesis and prognosis of human glioblastoma. Supervision: Prof. Giles-Hamilton Vince, Department of Neurosurgery, Würzburg University.
